

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/atm-21-5583">https://dx.doi.org/10.21037/atm-21-5583</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data of exosome proteomic analysis results in particular will be shared, and we also found a correlation between the MPO from exosome and deep venous thrombosis, which has never been provided in previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Three years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Bone surgeons and vascular surgeons who are interested in DVT.
8	For what type of analysis or purpose?	To analyze the prevention and treatment of deep venous thrombosis.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: aydlcyxhyf@163.com.
10	Any other restrictions?	We may have to balance the potential risks and benefits of each request and then provide the data to be shared.
