SECTION C: DISCRETE CHOICE EXPERIMENT***Description:***

- In the next section, you will see 8 hypothetical choice scenarios about buying tobacco for yourself, the only difference between the scenarios is the price of the tobacco products
- Each scenario will present you with 8 different tobacco products that you may purchase:
 1. Premium cigarettes like Marlboro, Davidoff, and Gitanes
 2. Discount cigarettes like Byblos, Cedars, and Maestro
 3. Premium mouassal arguileh tobacco (250 g) like Al Fakher, Nakhla, and Mazaya
 4. Discount mouassal arguileh tobacco (250 g) like Ya layl, Al Tamayoz
 5. Ajami arguileh tobacco (250 g) like Al Zaeem, Al Bacha, and Tombac Asfahani

HH.13

ECON-WTS 2018

6. Home-delivery of prepared arguileh
7. Baladi/sha'bi arguileh cafes
8. Fancy arguileh cafes

- Each of the 8 product categories will have its own price, and the prices change in each scenario.
- You will be asked to imagine yourself buying your needs of arguileh and cigarette smoking products as you would typically in real life, and tell us how many items you would buy.
- You may choose to buy 1 or more items from some types and none (i.e. 0) from others. You may choose to buy nothing at all, in which case the answer will be 0 for all 8 tobacco products.
- Please seriously consider the prices at which each item is being offered when making your decision about the quantities. Make sure that the sum you spend on these products is in line with your budget for buying tobacco. Also, keep in mind that the money you spend on tobacco products will not be available for you to spend on other things.
- Here is an example of a choice scenario:

. Think about the amount of arguileh and cigarette products you would purchase, based on the following prices:

	Cigarettes premium	Cigarettes discount	Arguileh tobacco premium	Arguileh tobacco discount	Ajami	Arguileh home delivery	Arguileh at fancy cafe	Arguileh session at Sha'bi cafe
	Pack of 20	Pack of 20	250g pack	250g pack	250g pack	1 waterpipe	1 waterpipe	1 waterpipe

Quantity	<i>1</i>	<i>0</i>	<i>2</i>	<i>0</i>	<i>0</i>	<i>0</i>	<i>1</i>	<i>2</i>

Now I leave you to complete the choice scenarios. [INTERVIEWER: LEAVE THE PARTICIPANT TO FILL IN THE CHOICE SETS]
