

Supplementary Appendix

Supplement to: Andrews N, Stowe J, Kirsebom F, et al. Covid-19 vaccine effectiveness against the omicron (B.1.1.529) variant. N Engl J Med. DOI: 10.1056/NEJMoa2119451

This appendix has been provided by the authors to give readers additional information about the work.

Table of Contents

Supplementary Tables	1
Supplementary Table 1. Weekly COVID-19 cases by gender, age and region and incidence ethnicity in the general population*.....	1
Supplementary Table 2. Logistic regression model results for Omicron and for Delta showing all factors included*.....	2
Supplementary Figures	7
Supplementary Figure 1. Flow chart demonstrating test selection and methodology.	7
Supplementary Figure 2. Distribution of Delta and Omicron cases in the study period.	8

*to ensure reasonable precision estimates are given if there are at least 10 cases or 2000 controls.

**no cases

Supplementary Figures

Supplementary Figure 1. Flow chart demonstrating test selection and methodology.

Data on all positive PCR and LFT tests (Pillar 1 and Pillar 2), and on negative Pillar 2 PCR tests from symptomatic individuals with an onset date after 25 November 2020 were extracted up to 12 January 2022.

Supplementary Figure 2. Distribution of Delta and Omicron cases in the study period.
