

University of Queensland
Student Perceptions of Peer Assisted Learning Using Scenario Based Simulation

Focus group questions

- What was your initial reaction when you found out that this session would involve peer learning?
 - How has that changed after the session?
- *What do you think the advantages were for you in participating in the PALSsim?
 - as a learner?
 - as a peer tutor/facilitator?
- *What do you think the disadvantages were for you in participating in the PALSsim?
 - as a learner?
 - as a peer tutor/facilitator?
- What was the value of writing scenarios in the simulation session?
- What value was there in 'acting' as the patient?
- What value was there in 'acting' as the nurse?
- What value was there in 'acting' as the doctor receiving referrals?
- What was most helpful in guidance from the facilitator when you were developing and delivering the scenario?
- Was anything challenging when running the scenario?
- What was the value of participating in scenarios written by peers?
- How did the PALSsim compare to sim sessions run by facilitators only?
- *What do you think you gained from the session?
- Did your thoughts about critical care/ emergency medicine change as a result of the session?
- Have your thoughts about simulation changed as a result of the session?

Student Perceptions of Peer Assisted Learning Using Scenario Based Simulation

Date:	Location: UQ	Rotation:			
Please indicate your level of agreement with the following:	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
I am better able to manage emergency / deteriorating patients as a result of the peer learning simulation					
I found value in writing / running a scenario compared to just participating in one					
My team was able to deliver an effective simulation session					
I had valuable contributions to make to my peer colleagues' learning					
I found it difficult to receive feedback from a peer					
I found it difficult to deliver feedback to a peer					
I found educational value in my peer's feedback on my performance					
I understand the patient experience better as a result of delivering the simulation					

What do you think the advantages/disadvantages were for you in participating in the PALSsim?

As a learner?

As a peer tutor/facilitator?

<p>What do you think you gained from the session?</p>
<p>How did your thoughts about critical care/ emergency medicine change as a result of the session?</p>
<p>Other comments:</p>

<p>Overall, I would give this session a rating of (1=Very Unsatisfactory; 2=Unsatisfactory; 3=Satisfactory; 4=Very Good; 5=Excellent)</p>				
<p>I would recommend this session to my peers (please circle)</p>	<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 33%; text-align: center; padding: 5px;">YES</td> <td style="width: 33%; text-align: center; padding: 5px;">NO</td> <td style="width: 33%; text-align: center; padding: 5px;">Possibly</td> </tr> </table>	YES	NO	Possibly
