

Supplement 2: ASH COVID-19 guideline manuscript conformation to RIGHT checklist

Domain	RIGHT (topic)	ASH COVID-19 guideline manuscript (page)
Basic information		
Title	1	1
Authors	-	1-3 & Supplement 3
Abstract	-	4
Executive summary	2	5-8
Abbreviations and acronyms	3	All abbreviations described within manuscript
Corresponding developer	4	3
Background		
Brief description of the health problem	5	9-10
Aims of the guideline and specific objectives	6	9
Target populations	7	10-11
End users and settings	8	9
Guideline development groups	9	12
Evidence		
Health care questions	10	13-14
Systematic reviews	11	15-17 & Online Evidence Profiles & Supplements 1, 6-11
Assessment of the certainty of the body of evidence	12	15-17, 21, 24-25 & Online Evidence Profiles
Recommendations		
Recommendations	13	19-20, 23 & Online Evidence-to-Decision frameworks
Rationale for recommendations	14	22, 25-26 & Online Evidence-to-Decision frameworks
Evidence to decision process	15	15-18, 20-22, 24-26 & Online Evidence-to-Decision frameworks
Review and quality assurance		

External review	16	11, 18
Quality assurance	17	11, 18
Funding and declaration and management of interests		
Funding sources and roles of the funder	18	12-13
Declaration and management of interests	19	12-13 & Supplements 4-5
Other information		
Access	20	Whole document (e.g. citation to guideline, links to Evidence-to-Decision frameworks, Evidence Profiles, and supplements)
Suggestions for further research	21	29-30 & Online Evidence-to-Decision frameworks
Limitations of the guideline	22	28
Updating the guideline	-	29
Applicability	14	Whole document (e.g. feasibility, acceptability for each recommendation)
Implementation	-	Online Evidence-to-Decision frameworks
Monitoring	-	Online Evidence-to-Decision frameworks
