

Table S2. NK-92 KFs at E:T 1:16 after 8 Hours					
Target	Average	Min	Max	N	Stdev
Raji	6.7	3.0	9.5	11	2.2
Daudi	6.8	6.5	8.5	3	1.6
K562	2.0	0.3	3.5	4	1.4

Data are based on calculations from both observed results and extrapolations based on the linear equation from LU₅₀ graphs. For Rajis & Daudis, 1 experiment is extrapolated data. For K562s, 2 experiments are extrapolated data.
