Table S3. Sample location coordinates, field sites description, and *in situ* temperature and pH measurements. “n.m.” means not measured due to the sample nature or logistic limitations.

Sample ID	Latitude, Longitude	Field site description	Air / soil temperature	pH
H-R-1	64° 01.219 N, 21° 23.642 W	Dark and ochre-colored soil in hot ground	12.0° / 93.0°	n.m.
H-R-2	64° 01.219 N, 21° 23.642 W	Orangish efflorescence in hot ground	11.8° / 77.8°	2.83
H-R-3	64° 01.219 N, 21° 23.642 W	Grayish-white efflorescence in hot ground	11.8° / 93.6°	5.21
H-R-4	64° 01.236 N, 21° 23.597 W	Dark-colored rock	11.2° / n.m.	n.m.
H-R-5	64° 01.236 N, 21° 23.597 W	Dark-colored rock	11.2° / n.m.	n.m.
H-R-6	64° 01.217 N, 21° 23.645 W	Yellowish soil in hot ground	7.9° / 60.0°	1.50
H-R-7	64° 01.217 N, 21° 23.645 W	Salmon-colored soil in hot ground	7.9° / 46.0°	1.68
H-R-8	64° 01.219 N, 21° 23.642 W	Grayish-white efflorescence	11.8° / n.m.	n.m.
H-MP-1	64° 03.467 N, 21° 13.637 W	Hot pool mud below pale efflorescence	5.9° / 73.9°	2.52
H-R-9	64° 03.448 N, 21° 14.252 W	Brownish soil in inactive fumarole	4.7° / 5.8°	5.67
H-R-10	64° 03.448 N, 21° 14.252 W	Reddish soil in inactive fumarole	4.7° / 7.2°	4.25

H-R-11	64° 03.450 N, 21° 14.243 W	Brownish soil in inactive fumarole	4.7° / 5.8°	2.95
H-R-12	64° 03.436 N, 21° 14.232 W	Light-colored soil in active fumarole	4.6° / 83.5°	2.59
H-R-13	64° 03.436 N, 21° 14.232 W	Light-colored sinter	4.6° / n.m.	n.m.
H-R-14	64° 03.436 N, 21° 14.232 W	Light-colored sinter	4.6° / n.m.	n.m.
H-MAT-1	64° 01.205 N, 21 23.657 W	Dark green mat in hot pot side	11.8° / 54°	6.00
H-MAT-2	64° 01.204 N, 21 23.690 W	Pale green mat in riverside	11.8° / 70°	6.00
H-MAT-3	64° 01.204 N, 21 23.690 W	White fibers in riverside	1.8° / 78°	6.00
H-MAT-4	64° 01.221 N, 21 23.653 W	Greenish microbial mat in river shore	11.2° / n.m.	7.40
H-MAT-5	64° 01.221 N, 21 23.653 W	Ochre orangish microbial mat in river shore	11.2° / n.m.	6.33
H-MAT-6	64° 03.467 N, 21° 13.637 W	Water from hot pool	5.9° / n.m.	6.03
H-MAT-7	64° 03.467 N, 21° 13.637 W	Grey mud from hot pool	5.9° / n.m.	6.03
H-MAT-8	64° 03.436 N, 21° 14.232 W	Biofilm from hotspring	4.6° / n.m.	7.46
H-MAT-9	64° 03.436 N, 21° 14.232 W	Mud from hot pool	4.7° / 7.2°	4.25
H-MAT-10	64° 03.467 N, 21° 13.637 W	Microbial mat	5.9° / 73.9°	2.52
K-R-1	63° 53.848 N, 22° 02.920 W	Reddish soil in inactive fumarole	7.6° / 8.9°	5.27
K-R-2	63° 53.850 N, 22° 02.935 W	Greyish soil in active fumarole	7.6° / 21.6°	2.95
K-R-3	63° 53.851 N, 22° 02.935 W	Yellowish soil in active fumarole	8.8° / 19.9°	2.85
K-R-4	63° 53.573 N, 22° 03.906 W	Dark grey rock	3.5° / n.m.	n.m.
K-R-5	63° 53.690 N, 22° 03.314 W	Pale sediment near river	5.0° / 4.9°	3.65
K-R-6	63° 53.690 N, 22° 03.307 W	Yellowish soil near mud pot	5.0° / 30.0°	1.99
K-R-7	63° 53.745 N, 22° 03.262 W	Grey mud pot fluid	5.7° / 61.7°	3.70
K-R-8	63° 53.752 N, 22° 03.195 W	Dark grey soil near mud pot	5.7° / n.m.	n.m.
K-MAT-1	63° 53.859 N, 22° 02.938 W	Microbial mat	5.0° / n.m.	2.95
K-MAT-2	63° 53.859 N, 22° 02.938 W	Microbial mat	5.0° / n.m.	n.m.
K-HP-1	63° 53.859 N, 22° 02.938 W	from hot spring precipitation	5.0° / n.m.	2.73
K-AF-1	63° 53.708 N, 22° 03.302 W	White-pale yellow soil from fumarole hot mouth	11.7° / 90°	1.00
K-AF-2	63° 53.709 N, 22° 03.303 W	White-pale yellow soil from fumarole cold low part	11.7° / 25°	2.00
K-MP-1	63° 53.712 N, 22° 03.316 W	Pale grey mud pot fluid	11.7° / 87°	2.00

N-IF-1	65° 38.392 N, 16° 48.694 W	Pale yellow solid material from inactive fumarole	9.3° / 74°	1.00
N-IF-2	65° 38.392 N, 16° 48.695 W	Grey solid material from inactive fumarole	9.3° / 49°	4.00
N-IF-3	65° 38.392 N, 16° 48.696 W	Red solid material from inactive fumarole	9.3° / 20°	3.00
N-IF-4	65° 38.392 N, 16° 48.697 W	Ochre solid material from inactive fumarole	9.3° / 66°	3.00
N-MP-1	65° 53.359 N, 16° 48.594 W	Dark grey mud pot fluid	9.3° / 74°	2.00
N-MP-2	65° 53.359 N, 16° 48.595 W	Pale grey mud pot fluid	9.3° / 63°	n.m.
N-HP-1	65° 53.708 N, 22° 03.302 W	Hot spring precipitation	9.3° / n.m.	n.m.
N-HP-2	65° 53.708 N, 22° 03.303 W	Hot spring precipitation	9.3° / n.m.	n.m.
