

**Supplement 1.** Instructions given to courier for no-contact drug delivery

- Shipment is made to a recipient who has tested positive for COVID-19 and all precautions are to be taken. Do not touch the door, doorbell, or any surfaces outside the house. Wear protective gloves if needed and avoid touching your face while in proximity.
- Upon arrival at recipient's home, keep your distance and simply drop the package outside the door.
- Call the recipient and have them pick up package at the door.
- Wait to see recipient pick up package before leaving.
