

Supplementary table 2. Primary antibodies used for immunostaining.

The monoclonal AIRE 6.1 antibody was produced in-house from a mouse hybridoma (41) and the clone was generated against a peptide comprising amino acids 1-206 of the N-terminus of the AIRE protein.

Antibody	Host species	Dilution	Manufacturer	Product code	RRID
AIRE 6.1	Mouse	1:100	in-house	N/A	N/A
Oct-4A (C52G3)	Rabbit	1:1000	Cell Signaling Technology	2890	AB_2167725
Nanog (D73G4) XP®	Rabbit	1:100	Cell Signaling Technology	4903	AB_10559205
Ki-67 (8D5)	Mouse	1:400	Cell Signaling Technology	9449	AB_2797703
