

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/atm-22-1126">https://dx.doi.org/10.21037/atm-22-1126</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The prognostic data in the follow-up time for IBD patients in particular will be shared, we found a correlation between IBD patients diagnosed as sarcopenia using AWGS2019 criteria and their clinical outcomes, which has seldom been provided in previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One year within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Gastroenterologists or general surgeons who are interested in studies of sarcopenia.
8	For what type of analysis or purpose?	For analysis to evaluate the correlation of sarcopenia, nutrition and clinical outcomes of IBD patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: liusifan369@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
