

**Fig. S1 Box plots showing Distress, Depression, Anxiety and Somatization scores in PID patients (N = 176) and controls (N = 348)**

Score ranges: Distress (0-32), Depression (0-12), Anxiety (0-24), Somatization (0-32). Horizontal black lines within box represent median; upper and lower boundaries of box represent interquartile range; whiskers represent 75th and 25th percentile. Higher scores indicate higher levels of symptoms. Horizontal dash lines represent "moderately high" score and solid lines represent "very high" score; both are considered aberrant. Asterisks represent extreme scores and circles represent outliers. P value based on Mann-Whitney U test.

Data from controls was obtained from <https://www.dataarchive.lissdata.nl>.
