

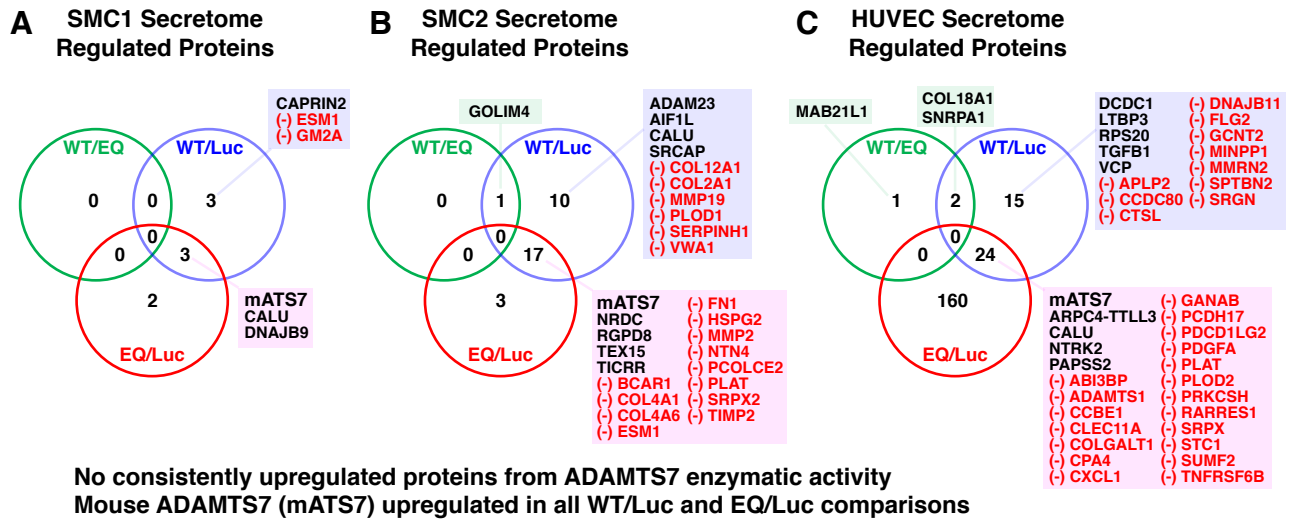

**Figure S5**

**Figure S5 Analysis of overlapping regulated proteins from each secretome experiment.** Comparison of regulated proteins within each ADAMTS7 secretome experiment. Significantly upregulated proteins ( $\log_{FC} > 1$ ) and down-regulated proteins ( $\log_{FC} < -1$ ) shown in red. List of proteins regulated in EQ/Luc alone are not shown. A. SMC1 Venn diagram, B. SMC2 Venn diagram, C. HUVEC Venn diagram.
