Hosted by: RedOrange Media and

Communications

Opportunities

There are opportunities for effective collaboration between policy makers, researchers and practitioners in which country specific knowledge is generated, shared, translated and used, so that better informed programmes and policies addressing child marriage and/or teen age pregnancy are developed.

Problem Statements

Main Stakeholders Related Problem Statement:

Absence of organised and structured knowledge on the consequences of Child Marriage and the violation of rights and related responses by NGOs and CSOs.

Country Specific Problem Statement:

There is a lack of coordination and interaction between different policy makers, researchers and practitioners who are working in Bangladesh resulting in limited knowledge sharing and translation on effective interventions to address child marriage.

Aim of Collaborative Approach in Bangladesh

Sharing and applying knowledge about the most effective strategies that contribute to successful knowledge gathering, translation and sharing on child marriage issues in Bangladesh.

Learning session 1

Key drivers* (Change Ideas** (concepts)	Specific Actions *** PDSA	Responsibility	Output Measure	Outcome Measure
Mapping of child marriage activities	Developed an information hub of organisations working on child marriage	<ul style="list-style-type: none"> - Develop format for the information collection - Share with possible stakeholders - Collect information - Collate information categorically - Validate - Add menu bar on the website - Upload on the website 	<ul style="list-style-type: none"> - Share-Net Bangladesh Team - All the participants 	<ul style="list-style-type: none"> - Specific space has been created on Share-Net Bangladesh website and information are being shared on the platform 	<ul style="list-style-type: none"> - Information hub is ready for use by the stakeholders for further collaboration

Key driver 1: Mapping of child marriage activities

Collaborative Approach on Child Marriage in Bangladesh

Organisation name: Plan International Bangladesh, The Bangladesh National Women Lawyers' Association (BNWLA)

Project Name: PHR (Protecting Human Rights)

Learning session 2

Key drivers*	Change Ideas** (concepts)	Specific Actions *** PDSA	Responsibility	Output Measure	Outcome Measure
Sharing best practices	A best practice “case study book”	<ul style="list-style-type: none">– Case study collection by interviewing project directors/managers– Copy editing– Case validation– Designing the book	Core team and home team	<ul style="list-style-type: none">- 300 copies of case study book will be printed and disseminated- e-copy will be disseminated through SNBD platform	<ul style="list-style-type: none">- Knowledge is shared on best practices of CM projects in Bangladesh- Increased knowledge addressing CM in Bangladesh

Key driver 2: Highlighted of Initiatives Addressing Child Marriage in Bangladesh

Learning session 3

Key drivers*	Change Ideas** (concepts)	Specific Actions *** PDSA	Responsibility	Output Measure	Outcome Measure
Collaboration among stakeholders for strengthening the advocacy effort	Organising round-table discussion to share the lessons learnt in promoting the CM issue in Bangladesh	<ul style="list-style-type: none"> – Identifying partners – Developing concept note – Inviting guests – Organising round-table meeting – Sharing the outcome on SNBD website 	Core team and home team	- 20/25 participants join the meeting from 18 organisations	<ul style="list-style-type: none"> - Knowledge is translated and shared - Increased collaboration among partners

Key driver 3: Strengthening the collaboration among stakeholders ensuring coordinated effort to address Child Marriage in Bangladesh

Learning Output

Output of the 1st learning session

Created an information hub of organisations working on child marriage in Bangladesh

Output of the 2nd learning session

Highlighted of Initiatives Addressing Child Marriage in Bangladesh

Output of the 3rd learning session

Roundtable meeting organised:
Strengthening the collaboration among stakeholders ensuring coordinated effort to address Child Marriage in Bangladesh

Main Challenges

- Bringing all the stakeholders on time
- Commitment from the participants
- Difficulties in getting their appointments
- Budget

Lessons Learnt

Organising the learning
session for a day
Involve members to
take some of the
sessions

THANK YOU

Approach**

Rutgers WPF Indonesia

Share-Net Netherlands – Indonesia Collaborative

About Rutgers WPF Indonesia

Rutgers WPF Indonesia is a centre of expertise organization on reproductive health, sexuality and the prevention of sexual and gender-based violence.

Rutgers WPF Indonesia develops programs to improve young people's access towards comprehensive sexual education and youth-friendly services, as well as encourages men's engagement to prevent gender-based violence. Rutgers WPF Indonesia works together with partners in the local level. The organization has proven its track record in the related fields and its innovations in the policy advocacy, research, gender-transformative approach and supporting local partners. Rutgers WPF Indonesia works with more than 18 partners in 13 provinces around Indonesia.

Child Marriage and Teenage Pregnancy Data in Indonesia

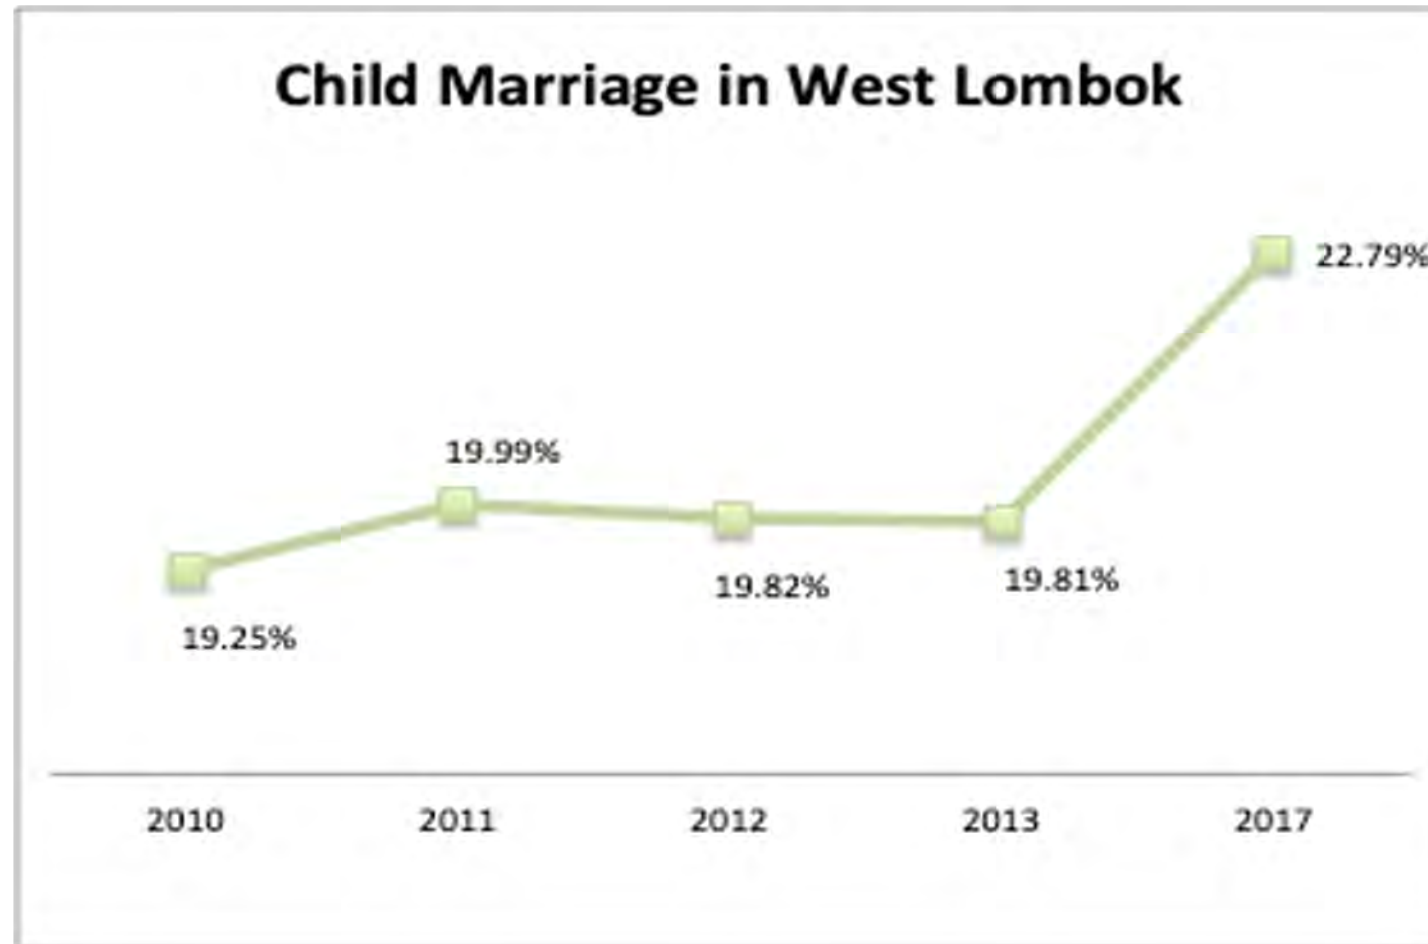

Percentage of ever-married women aged 20 to 24 married before age 18, 16 and 15, 2008 to 2015

The child marriage rate in Indonesia remains high, with over one in four girls currently marrying before reaching adulthood. Furthermore, the rate has plateaued in recent years.

(Source: Secondary analysis of SUSENAS 2008-2012, 2013 and 2015)

This will decrease of the approval for young couple under 18 yo from the head of villages.
	Monitoring of the merarik guideline implementation	Action period: September-December 2018	District working group	<ul style="list-style-type: none"> - Monitoring report (1) - Number of stakeholders participated (16) 	Stakeholders are committed to implement and monitor of the merarik guideline implementation.

Local Collaborative LS 3

- **On 8 January 2019:** Learning session 3 was participated by the District Working group. Agenda: Review the scope, mandate, roles and responsibilities for each stakeholder (Population and Family Planning Office, Health Office, Education Office, Religion Office, etc) to ensure sustainability of the implementation Guidelines.
- **On 21-22 November 2018.** Training/dissemination to 40 village heads.

Country Hub Change package LS 3

Key drivers*	Change Ideas** (concepts/results)	Specific Actions *** PDSA	Responsibility	Output Measure	Outcome Measure
Stakeholders engagement	Development of the syllabus for training of Merarik guideline (0,5 day)	Action period: October 2018	Committee of District working group	- Action period report (1) - Syllabus of the training (1) - Number of stakeholders (5)	Stakeholders are committed to conduct and involve in the training of Merarik guideline as facilitator
	Training of Merariq guidelines to the head of the villages (1,5 day) Piloting of the Merarik guideline Implementation by village head	Action period: October 2018 Action period: October-December 2018	· Village authorities · Stakeholders in DWG	- Action period report (1) - Number of heads of village participated (40)	Head of the villages understand and follow the Merarik guidelines.
Monitoring	1. Learning session 3 (1 day) 2. Round table meeting of development of the agreement letter among the institutions of the DWG (ex District of Family planning) to adopt the guideline and allocating budget for village heads training in another villages (1 day) (review the scope, mandate, Role and responsibility)	Action period: November 2018	- DWG members	- Action period report (1) - Number of DWG members (16)	
	Monitoring of the merarik guideline implementation (collecting success story)	Action period: December 2018	District working group	- Monitoring report (1) - Number of stakeholders participated	Stakeholders are committed to implement and monitor of the merarik guideline implementation.

The most successful:

- Commitment of the stakeholders (DWG) to be involved in each Learning Session and Implementing the Action Plan.
- Merarik guideline developed in English and Bahasa Indonesia.
- Activity and budget sharing allocation between Share Net and DWG to disseminate the merarik guideline (joint action).
- Merarik guideline is included in Technical Guidelines for Anti Child Marriage Movement (government regulation) to be applied in West Lombok.

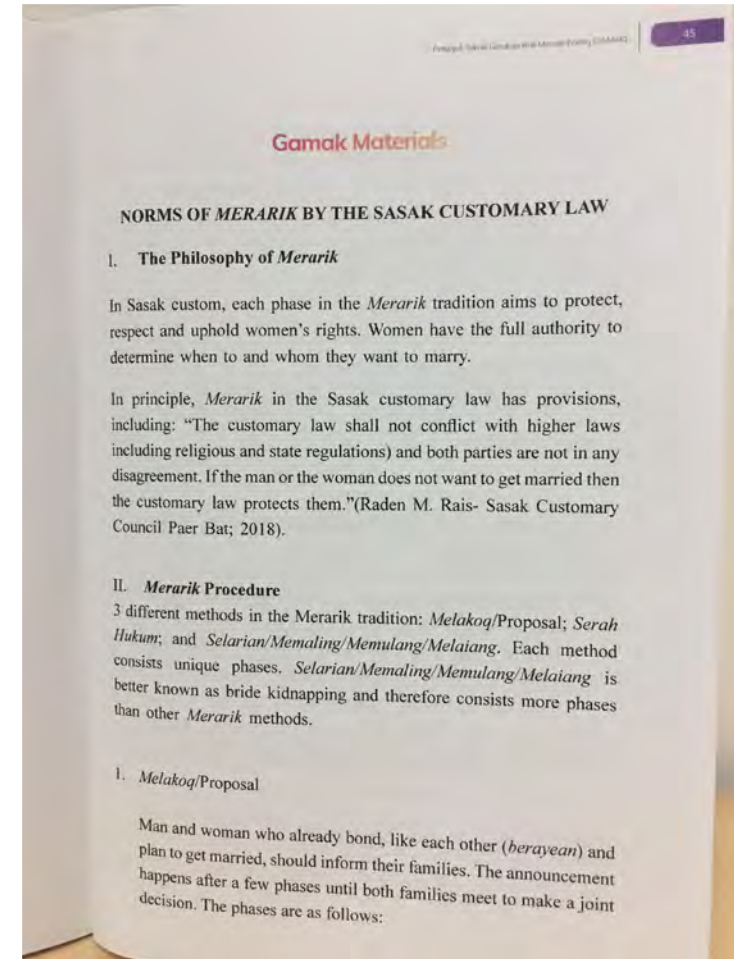

To be followed up

- Monitoring of the Merarik guideline implementation

Knowledge Product

Outcomes and Impacts of Knowledge Product

Outcome :

Village heads apply
Merarik culture according
to true Sasak Customary
Law

Impact :

Decreasing child
marriage caused by
misinterpretation of
Merarik Culture in
West Lombok

Multi-stakeholders Partnership

- Yes I Do Country and Local Alliance – Monitoring implementation of Merarik Guidelines + Expand socialization of Merarik Guideline
- District Working Group – Developing Belas (Customary Law to Postpone Marriage and Monitoring implementation of Merarik Guidelines)
- Adolescent Network of CM Prevention – Advocate for increase marriage age at national level
- Girls Not Brides Network in Indonesia – Visit of Princess Mabel, Publish Case Stories

A people without the
knowledge of their past
history, origin and
culture is like a tree
without roots
