

MODIFIED HEART SCORE:

History:	highly suspicious	2 points
	moderately suspicious	1 point
	slightly suspicious	0 points
EKG:	significant ST depression	2 points
	non-specific change	1 point
	normal	0 points
Age:	≥65	2 points
	45-64	1 point
	<45	0 points
RF:	≥3 or hx CAD	2 points
	1-2	1 point
	none known	0 points
Trop:	above normal limit	4 points
	indeterminate range	1 point
	undetectable	0 points

HEART CHEST PAIN HISTORY:

- Localization
- Pattern
- Onset and duration
- Relation with exercise, stress or cold
- Reaction to sublingual nitrates
- Concomitant symptoms

SUSPICION:

SLIGHT: NO historical elements suggesting cardiac CP

MODERATE: SOME historical elements suggesting cardiac CP
PLUS SOME historical elements suggesting non-cardiac CP

HIGH: PRIMARILY historical elements suggesting cardiac CP

HEART RISK FACTORS:

DM	- currently treated
Smoker	- current or recent (<1 mo)
HTN	- previously diagnosed
Hyperlipidemia	- previously diagnosed
FH of CAD	
Obesity	- BMI ≥ 30
