

Supplementary Table 4

	Thigh	Lower leg		
		superficial dominant	complex	deep dominant
Type I	superficial dominant	5	0	0
	complex	2	2	0
	deep dominant	0	3	7
Type II	superficial dominant	2	0	0
	complex	2	1	1
	deep dominant	0	0	0
Type III	superficial dominant	4	0	0
	complex	1	0	0
	deep dominant	0	0	0
Type IV	superficial dominant	0	0	0
	complex	0	0	1
	deep dominant	0	1	0
Type V	superficial dominant	0	0	0
	complex	0	0	0
	deep dominant	0	0	0

**Supplementary Table 4.** Distribution of the type I to V-DBF patients based on the lymph flow pathways in each body parts in cases whose lymph nodes in the inguinal region were observed in the images of SPECT-CT LSG in the affected lower limbs

DBF: dermal back flow
