

Supplementary Table 5

Thigh		Lower leg		
		superficial dominant	complex	deep dominant
Type I	superficial dominant	0	0	0
	complex	2	0	0
	deep dominant	0	2	2
Type II	superficial dominant	1	0	0
	complex	1	0	0
	deep dominant	0	0	0
Type III	superficial dominant	2	1	0
	complex	1	1	0
	deep dominant	0	0	0
Type IV	superficial dominant	1	0	0
	complex	5	5	0
	deep dominant	2	5	2
Type V	superficial dominant	0	0	0
	complex	0	1	0
	deep dominant	1	5	9

**Supplementary Table 5.** Distribution of the type I to V-DBF patients based on the lymph flow pathways in each body parts in cases whose lymph nodes in the inguinal region were negative in the images of SPECT-CT LSG in the affected lower limbs

DBF: dermal back flow.
