

SUPPLEMENTARY FIGURES

Supplementary Figure S1. Leicester Cough Questionnaire items by domain. Numbers represent corresponding question numbers (or item numbers) in questionnaire.

Supplementary Figure S2. ROC curves for the LCQ **(A)** total, **(B)** physical, **(C)** psychological, and **(D)** social score changes for predicting global improvements based on the PGIC (scores of 1 to 3) at Week 4. LCQ, Leicester Cough Questionnaire; PGIC, patient global impression of change; ROC, receiver operating characteristic.

Supplementary Figure S3. ROC curve for the LCQ total score change for predicting global improvements based on the PGIC (scores of 1 to 2) at Week 4. Leicester Cough Questionnaire; PGIC, patient global impression of change; ROC, receiver operating characteristic.
