

Description of Additional Supplementary Files

File name: Supplementary Data 1

Description: m6A peaks identified in *Aedes aegypti* through MeRIP-Seq analysis

File name: Supplementary Data 2

Description: Gene Ontology enrichment of *Aedes aegypti* genes with m6A peaks

File name: Supplementary Data 3

Description: Differentially expressed m6A peaks due to dengue virus infection

File name: Supplementary Data 4

Description: Differentially expressed genes due to dengue virus infection
