

Description of Additional Supplementary Files

File name: Supplementary Data 1

Description: Supplementary Data 1 include z-score values for the genes involved in the angiogenesis pathway demonstrated in the main Figure 5a.

File name: Supplementary Data 2

Description: Supplementary Data 2 include z-score values for the genes involved in the cell survival pathway demonstrated in the main Figure 5b.

File name: Supplementary Data 3

Description: Supplementary Data 3 include z-score values for the IFN-gamma related Ayer's inflammatory gene signature as shown in the main Figure 5c.
