Subject Authorship Change Letter

Dear co-authors:

We are wishing to add Dr. Yingxia Lan as the seventh author of our article (manuscript number CDDIS-21-2748RRRR) entitled "IDO1 plays a tumor-promoting role via MDM2-mediated suppression of the p53 pathway in diffuse large B-cell lymphoma", as described below (Authors: Chengtao Sun#, Mengzhen Li#, Lian Zhang#, Feifei Sun, Huimou Chen, Yanjie Xu, Yingxia Lan, Li Zhang, Suying Lu, Jia Zhu, Junting Huang, Juan Wang, Yang Hu, Yanfen Feng, and Yizhuo Zhang*). Yingxia Lan contributed much in the revised version of our manuscript. She did a great job for the in vivo study, GEO data analysis, further information on the subtypes of DLBCL, ELISA, precision recall curves (PRC) and receiver operating characteristic (ROC) analysis, as listed in revised Figure 1 D-G, Figure 2 F, Figure 3 H-I, Supplementary Figure S3, and Supplementary Table S1.

Please confirm whether you agree to the change in the authorship of our article.

Sincerely,

Yizhuo Zhang

The replies of Co-authors are listed as below:
