<u>Materials Design Analysis Reporting (MDAR)</u> Checklist for Authors

The MDAR framework establishes a minimum set of requirements in transparent reporting applicable to studies in the life sciences (see Statement of Task: doi:10.31222/osf.io/9sm4x.). The MDAR checklist is a tool for authors, editors, and others seeking to adopt the MDAR framework for transparent reporting in manuscripts and other outputs. Please refer to the MDAR Elaboration Document for additional context for the MDAR framework.

For all that apply, please note where in the manuscript the required information is provided.

Materials:

Newly created materials	indicate where provided: page no/section/legend)	n/a
The manuscript includes a dedicated "materials availability statement" providing transparent disclosure about availability of newly created materials including details on how materials can be accessed and describing any restrictions on access.	Main text: Data and materials availability	
Antibodies	indicate where provided: page no/section/legend)	n/a
For commercial reagents, provide supplier name, catalogue number and <u>RRID</u> , if available.	Supplementary Materials: Page 7/Materials and Methods/Single B-cell sorting and antibody cloning	
DNA and RNA sequences	indicate where provided: page no/section/legend)	n/a
Short novel DNA or RNA including primers, probes:		
Sequences should be included or deposited in a public repository.		х
	indicate where provided, page no (agation (lagond	n /a
Cell materials Cell lines: Provide species information, strain.	indicate where provided: page no/section/legend	n/a
Provide accession number in repository OR supplier	Supplementary Materials: Page 2/Materials and	
name, catalog number, clone number, OR RRID.	Methods/Cells and viruses	
Primary cultures: Provide species, strain, sex of origin, genetic modification status.		х
Experimental animals	indicate where provided: page no/section/legend)	n/a
Laboratory animals or Model organisms: Provide		
species, strain, sex, age, genetic modification status.		
Provide accession number in repository OR supplier name, catalog number, clone number, OR RRID.		X
Animal observed in or captured from the field:		
Provide species, sex, and age where possible.		х
Dische and misselves		n/a
Plants and micropes	Indicate where provided: page no/section/legend)	
Plants and microbes Plants: provide species and strain, ecotype and	indicate where provided: page no/section/legend)	
Plants and microbes Plants: provide species and strain, ecotype and cultivar where relevant, unique accession number if	Indicate where provided: page no/section/legend)	
Plants: provide species and strain, ecotype and	Indicate where provided: page no/section/legend)	x
Plants: provide species and strain, ecotype and cultivar where relevant, unique accession number if	Indicate where provided: page no/section/legend)	
Plants: provide species and strain, ecotype and cultivar where relevant, unique accession number if available, and source (including location for collected	Supplementary Materials: Page 3/Materials and	
Plants: provide species and strain, ecotype and cultivar where relevant, unique accession number if available, and source (including location for collected wild specimens).		
Plants: provide species and strain, ecotype and cultivar where relevant, unique accession number if available, and source (including location for collected wild specimens). Microbes: provide species and strain, unique	Supplementary Materials: Page 3/Materials and Methods/Cells and viruses indicate where provided: page no/section/legend) or	
 Plants: provide species and strain, ecotype and cultivar where relevant, unique accession number if available, and source (including location for collected wild specimens). Microbes: provide species and strain, unique accession number if available, and source. 	Supplementary Materials: Page 3/Materials and Methods/Cells and viruses indicate where provided: page no/section/legend) or state if these demographics were not collected	x
Plants: provide species and strain, ecotype and cultivar where relevant, unique accession number if available, and source (including location for collected wild specimens). Microbes: provide species and strain, unique accession number if available, and source. Human research participants	Supplementary Materials: Page 3/Materials and Methods/Cells and viruses indicate where provided: page no/section/legend) or	x

Design:

Study protocol	indicate where provided: page no/section/legend)	n/a
If study protocol has been pre-registered, provide DOI. For clinical trials, provide the trial registration number OR cite DOI.		x

indicate where provided: page no/section/legend)	n/a
	х
	indicate where provided: page no/section/legend)

Experimental study design (statistics details)		
For in vivo studies: State whether and how the following have been done	indicate where provided: page no/section/legend. If it could have been done, but was not, write not done	n/a
Sample size determination		х
Randomisation		х
Blinding		х
Inclusion/exclusion criteria		х

Sample definition and in-laboratory replication	indicate where provided: page no/section/legend	n/a
State number of times the experiment was replicated in laboratory.	Main text: Fig. 2 legend; Fig. 5 legend. Supplementary Materials: Page 23/fig. S1 legend; Page 26/fig. S4 legend; Page 27/fig. S5 legend; Pages 28–29/fig. S6 legend; Page 30/fig. S7 legend; Page 32/fig. S8 legend.	
Define whether data describe technical or biological replicates.	Main text: Fig. 2 legend; Fig. 5 legend. Supplementary Materials: Page 23/fig. S1 legend; Page 26/fig. S4 legend; Page 27/fig. S5 legend; Pages 28–29/fig. S6 legend; Page 30/fig. S7 legend; Page 32/fig. S8 legend.	

Ethics	indicate where provided: page no/section/legend	n/a
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.	Supplementary Materials: Page 2/Donors	
Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.		x
Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority approving study; if none were required, explain why.		x

Dual Use Research of Concern (DURC)	indicate where provided: page no/section/legend	n/a
If study is subject to dual use research of concern		
regulations, state the authority granting approval		х
and reference number for the regulatory approval.		

Analysis:

Attrition	indicate where provided: page no/section/legend	n/a
Describe whether exclusion criteria were		
preestablished. Report if sample or data points were		
omitted from analysis. If yes report if this was due to		х
attrition or intentional exclusion and provide		
justification.		

Statistics	indicate where provided: page no/section/legend	n/a
Describe statistical tests used and justify choice of	Main text: Fig. 2 legend.	
tests.	Supplementary Materials: Page 22/Quantification and statistical anlysis; Page 27/fig. S5 legend; Pages 28–29/fig. S6.	

Data availability	indicate where provided: page no/section/legend	n/a
For newly created and reused datasets, the manuscript includes a data availability statement that provides details for access or notes restrictions on access.	Main text: Data and materials availability	
If newly created datasets are publicly available, provide accession number in repository OR DOI OR URL and licensing details where available.	Main text: Data and materials availability	
If reused data is publicly available provide accession number in repository OR DOI OR URL, OR citation.		x

Code availability	indicate where provided: page no/section/legend	n/a
For all newly generated custom computer code/software/mathematical algorithm or re-used code essential for replicating the main findings of the study, the manuscript includes a data availability statement that provides details for access or notes restrictions.		x
If newly generated code is publicly available, provide accession number in repository, OR DOI OR URL and licensing details where available. State any restrictions on code availability or accessibility.		x
If reused code is publicly available provide accession number in repository OR DOI OR URL, OR citation.		x

Reporting

MDAR framework recommends adoption of discipline-specific guidelines, established and endorsed through community initiatives. Journals have their own policy about requiring specific guidelines and recommendations to complement MDAR.

Adherence to community standards	indicate where provided: page no/section/legend	n/a
State if relevant guidelines (e.g., ICMJE, MIBBI, ARRIVE) have been followed, and whether a checklist (e.g., CONSORT, PRISMA, ARRIVE) is provided with the manuscript.		x
