

SUPPLEMENTAL MATERIAL

The data for this study was obtained from the United Network for Organ Sharing (www.unos.org). The data included freetext fields which could contain protected health information. For this reason, a data use agreement was necessary along with an Institutional Review Board Approval. On this basis, the authors cannot share the data but it can be requested from the United Network for Organ Sharing directly.

Table S1: UNOS Toxicology Fields

UNOS Field Name	Number (%) of Donors Positive	Number (%) of Donors Negative	Number (%) of Donors Unknown	Number of Donors with NO Data	Meaning of Field
Current UNOS Fields					Collected since 6/30/2004
ALCOHOL_HEAVY_DON	3743 (15.8 %)	19574 (82.4%)	421 (1.7%)	10 (0.01 %)	Heavy Alcohol Use (heavy=2+ drinks/day)
CONTIN_COCAINE_DON	1835 (7.7 %)	1640 (6.9 %)	574 (2.4 %)	19699 (83%)	History of cocaine use+ recent 6-month use
CONTIN_OTH_DRUG_DON	7447 (31.4 %)	2363 (10 %)	1167 (4.9 %)	12771 (53.7 %)	History of other drugs in past + recent 6-month use
HIST_COCAINE_DON	4049 (17%)	19254 (81 %)	417 (1. %)	28 (0.1%)	History of cocaine use in past
HIST_OTH_DRUG_DON	10976 (46.2 %)	12485 (52.6 %)	259 (1.1 %)	28 (0.12 %)	History of other drug use in past
