

Description of Additional Supplementary Files

File name: Supplementary Data 1

Description: The dataset of stomatin-associated proteins was identified by a Liquid Chromatography with Tandem Mass Spectrometry-Based Proteomic assay (LC-MS-MS).

File name: Supplementary Movie 1

Description: The time-lapse recording under phase contrast and fluorescence microscopy of the sequence of a LD-LD fusion event within a live adipocyte-like 3T3-L1 cell transfected with hSTOM-RFP. Time is shown in hr : min.
