

Description of Additional Supplementary Files

File name: Supplementary Data 1

Description: 95% Credible Sets for all reported Loci.

File name: Supplementary Data 2

Description: 99% Credible Sets for Reported Loci from Pooled Analysis with <50 Variants.

File name: Supplementary Data 3

Description: References for previous identification of variants in this study.

File name: Supplementary Data 4

Description: Reference for previous identification of gene regions in this study.

File name: Supplementary Data 5

Description: Lookups in related traits of identified loci in TOPMed projects.

File name: Supplementary Data 6

Description: Significant Results of genome wide Fasting Glucose gene-centric rare variant aggregate tests.

File name: Supplementary Data 7

Description: Significant Results of genome wide Fasting Glucose genetic-regions (sliding window) rare variant aggregate tests.

File name: Supplementary Data 8

Description: Significant Results of genome wide log Fasting Insulin gene-centric rare variant aggregate tests.

File name: Supplementary Data 9

Description: Significant Results of genome wide log Fasting Insulin genetic-regions (sliding window) rare variant aggregate tests.
