#### <u>Materials Design Analysis Reporting (MDAR)</u> Checklist for Authors

The MDAR framework establishes a minimum set of requirements in transparent reporting applicable to studies in the life sciences (see Statement of Task: doi:10.31222/osf.io/9sm4x.). The MDAR checklist is a tool for authors, editors, and others seeking to adopt the MDAR framework for transparent reporting in manuscripts and other outputs. Please refer to the MDAR Elaboration Document for additional context for the MDAR framework.

#### For all that apply, please note where in the manuscript the required information is provided.

#### **Materials:**

| terrais.  |   |       |
|---|---|-------|
|   |   |       |
| Newly created materials                                   | indicate where provided: page no/section/legend)    | n/a   |
| The manuscript includes a dedicated "materials            | marcate where provided page horsection regends      | 11/44 |
| availability statement" providing transparent             |   |       |
| disclosure about availability of newly created            |   | X     |
| materials including details on how materials can be       |   | 71    |
| accessed and describing any restrictions on access.       |   |       |
|   |   | •     |
| Antibodies  | indicate where provided: page no/section/legend)    | n/a   |
| For commercial reagents, provide supplier name,           |   |       |
| catalogue number and <u>RRID</u> , if available.          |   | X     |
|   |   |       |
| DV4 1DV4  |   | 1 .   |
| DNA and RNA sequences                                     | indicate where provided: page no/section/legend)    | n/a   |
| Short novel DNA or RNA including primers, probes:         |   |       |
| Sequences should be included or deposited in a            |   | X     |
| public repository.  |   |       |
|   |   |       |
| Cell materials  | indicate where provided: page no/section/legend     | n/a   |
| Cell lines: Provide species information, strain.          |   |       |
| Provide accession number in repository <b>OR</b> supplier |   | X     |
| name, catalog number, clone number, <b>OR</b> RRID.       |   | 21    |
|   |   |       |
| <b>Primary cultures:</b> Provide species, strain, sex of  |   | X     |
| origin, genetic modification status.                      |   | Λ     |
| Experimental animals                                      | indicate where provided: page no/section/legend)    | n/a   |
| Laboratory animals or Model organisms: Provide            | marcare where provided page horsection regends      | 11/44 |
| species, strain, sex, age, genetic modification status.   |   |       |
| Provide accession number in repository <b>OR</b> supplier |   | X     |
| name, catalog number, clone number, <b>OR</b> RRID.       |   |       |
|   |   |       |
| Animal observed in or captured from the field:            |   |       |
| Provide species, sex, and age where possible.             |   | X     |
|   |   |       |
| Plants and microbes                                       | indicate where provided: page no/section/legend)    | n/a   |
| Plants: provide species and strain, ecotype and           |   |       |
| cultivar where relevant, unique accession number if       |   |       |
| available, and source (including location for collected   |   | X     |
| wild specimens).  |   |       |
| Microbes: provide species and strain, unique              |   |       |
| accession number if available, and source.                |   | X     |
|   |   |       |
| Human research participants                               | indicate where provided: page no/section/legend) or | n/a   |
| If collected and within the bounds of privacy             | state if these demographics were not collected      |       |
| constraints report on age, sex and gender or ethnicity    |   | X     |
| for all study participants.                               |   | 1     |
|   | 1   | _1    |

# Design:

| Study protocol   | indicate where provided: page no/section/legend) | n/a |
|--|--|-----|
| If study protocol has been pre-registered, provide DOI. For clinical trials, provide the trial registration number <b>OR</b> cite DOI. |  | X   |

| Laboratory protocol  | indicate where provided: page no/section/legend) | n/a |
|--|--|-----|
| Provide DOI <b>OR</b> other citation details if detailed step- |  |     |
| by-step protocols are available.                               |  | x   |
|  |  | Λ   |
|  |  |     |

| Experimental study design (statistics details)                                 |  |     |
|--|--|-----|
| <b>For in vivo studies:</b> State whether and how the following have been done | indicate where provided: page no/section/legend. If it could have been done, but was not, write not done | n/a |
| Sample size determination  |  | X   |
| Randomisation  |  | X   |
| Blinding   |  | X   |
| Inclusion/exclusion criteria   |  | X   |

| Sample definition and in-laboratory replication                    | indicate where provided: page no/section/legend | n/a |
|--|---|-----|
| State number of times the experiment was replicated in laboratory. |   | X   |
| Define whether data describe technical or biological replicates.   |   | X   |

| Ethics  | indicate where provided: page no/section/legend | n/a |
|---|---|-----|
| Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.   | Letter from Scripps IRB included – IRB-22-7908  |     |
| Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval. |   | X   |
| Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority approving study; if none were required, explain why. |   | X   |

| Dual Use Research of Concern (DURC)                    | indicate where provided: page no/section/legend | n/a |
|--|---|-----|
| If study is subject to dual use research of concern    |   |     |
| regulations, state the authority granting approval and |   | X   |
| reference number for the regulatory approval.          |   |     |

# **Analysis:**

| Attrition  | indicate where provided: page no/section/legend | n/a |
|--|---|-----|
| Describe whether exclusion criteria were preestablished. Report if sample or data points were omitted from analysis. If yes report if this was due to attrition or intentional exclusion and provide |   | X   |
| justification.   |   |     |

| Statistics  | indicate where provided: page no/section/legend            | n/a |
|---|--|-----|
| Describe statistical tests used and justify choice of | Statistical tests are described on pages 4-9 of the        |     |
| tests.  | Materials and Methods section of the Supplemental          |     |
|   | Material. The tests used include comparing observed        |     |
|   | distances of case locations to the Huanan market against   |     |
|   | empirical distributions, comparing the distance between    |     |
|   | two sets of locations to the Huanan market using the       |     |
|   | Wilcoxon rank sum test, and testing of the significance of |     |
|   | live animal vendors and/or human SARS-CoV-2 cases on       |     |
|   | the number of positive environmental samples found in a    |     |
|   | business using a binomial GLM.                             |     |

| Data availability  | indicate where provided: page no/section/legend   | n/a |
|--|---|-----|
| For newly created and reused datasets, the manuscript includes a data availability statement that provides details for access or notes restrictions on access. | Data availability statement is in Acknowledgements section on page 9 of the main manuscript and on page 56 of the Supplemental Methods.   |     |
| If newly created datasets are publicly available, provide accession number in repository <b>OR</b> DOI <b>OR</b> URL and licensing details where available.    | Data and code for this manuscript will be provided on GitHub: <a href="https://github.com/sars-cov-2-origins/huanan-market">https://github.com/sars-cov-2-origins/huanan-market</a> .   |     |
| If reused data is publicly available provide accession number in repository <b>OR</b> DOI <b>OR</b> URL, <b>OR</b> citation.                                   | COVID-19 case data we consider here is that reported in the WHO mission report (WHO 2021). WHO. 2021. "WHO-Convened Global Study of Origins of SARS-CoV-2: China Part." World Health Organization. March 30, 2021. https://www.who.int/publications/i/item/who-convened-global-study-of-origins-of-sars-cov-2-china-part.                           |     |
|  | Guizhen, "中疾控病疾控报   Chinese CDC Disease Control Report" (53, Chinese CDC, 2020).  Data used to create that map of Wuhan was acquired from OpenStreetMap®, which is licensed under the Open Data Commons Open Database License (ODbL) by the OpenStreetMap Foundation (OSMF), ©OpenStreetMap contributors (https://www.openstreetmap.org/copyright). |     |

| Code availability  | indicate where provided: page no/section/legend   | n/a |
|--|---|-----|
| For all newly generated custom computer code/software/mathematical algorithm or re-used code essential for replicating the main findings of the study, the manuscript includes a data availability statement that provides details for access or notes restrictions. | Data and code for this manuscript will be provided on GitHub: <a href="https://github.com/sars-cov-2-origins/huanan-market">https://github.com/sars-cov-2-origins/huanan-market</a> . |     |

| If newly generated code is publicly available, provide accession number in repository, <b>OR</b> DOI <b>OR</b> URL and licensing details where available. State any restrictions on code availability or accessibility. | X |
|---|---|
| If reused code is publicly available provide accession number in repository <b>OR</b> DOI <b>OR</b> URL, <b>OR</b> citation.  | X |

# Reporting

MDAR framework recommends adoption of discipline-specific guidelines, established and endorsed through community initiatives. Journals have their own policy about requiring specific guidelines and recommendations to complement MDAR.

| Adherence to community standards   | indicate where provided: page no/section/legend | n/a |
|--|---|-----|
| State if relevant guidelines (e.g., ICMJE, MIBBI, ARRIVE) have been followed, and whether a checklist (e.g., CONSORT, PRISMA, ARRIVE) is provided with the manuscript. |   | X   |
