

Title: Supplementary Dataset 1.

Description: Annotation of m6A peaks

Title: Supplementary Dataset 2.

Description: GO analysis of m6A-modified genes

Title: Supplementary Dataset 3.

Description: Time course liver tissue RNA-sequencing

Title: Supplementary Dataset 4.

Description: mRNA splicing analysis for genes in livers from different age of Control and cKO mice

Title: Supplementary Dataset 5.

Description: RNA-sequencing of mouse primary hepatocyte treated with actinomycin
