

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Differentially expressed genes after DPF3a overexpression in 786-O cells.

File Name: Supplementary Data 2

Description: Differentially expressed genes after SNIP1 knockdown in 786-O cells.

File Name: Supplementary Data 3

Description: Differentially spliced genes upon DPF3a overexpression and SNIP1 knockdown in 786-O cells.
