Questions for Providers:

1. Introduction
2. We feel that provider input is critical in the implementation of this program and are calling to get your thoughts on integrative oncology?
3. What are the most important services that your patients can use?
 - a. i.e. acupuncture, massage therapy, etc.
4. How do you think we can incorporate complementary medicine into your clinic?
5. What do you think are the most important aspects on integrative oncology?
6. What do you think are the education needs for our staff?
7. In terms of cost, some of these services may not be covered by insurance. How do you think we can assist our patients that lack the funds to get these services?
8. Are there any gaps that you feel need to be addressed to implement this program?
9. Any other thoughts or recommendations?
