Dear co-authors,

We are nearly there! Manuscript: BJC-A3339175R1 Modelling immune cytotoxicity for cholangiocarcinoma with tumor-derived organoids and effector T cells., gave us a small hiccup that is fortunately easily addressed.

As we needed to do more experiments in absence of Ruby and Estella, we asked Luc (M), Patrick and Jyaysi if they could help us. And they did! So, all were included as co-authors on this manuscript. The Journal now would like to formally ask all of you if you agree to those changes. For this I would need an e-mail from you, in which you confirm that you agree.

Can you please send me your reply to this e-mail, including a statement that you agree to the changes made, i.e. including Luc Magre, Patrick P.C. Boor and Jyaysi Desai, in the author list at you soonest so I can bundle all replies and upload them to BJC.

The BJC also wanted me to contact you to ask you to link your own ORCID to this manuscript. You can do this via the author portal here: <https://mts-bjcancer.nature.com/cgi-bin/main.plex> and click on the 'Modify My Springer Nature Account' (see below)

Dear Monique,

I agree with adding Luc Magre, Patrick P.C. Boor and Jyaysi Desai as co-authors to the manuscript BJC-A3339175R1.

Let me know if there is anything else needed from my side.

Best,
Lucia

Dear co-authors,

We are nearly there! Manuscript: BJC-A3339175R1 Modelling immune cytotoxicity for cholangiocarcinoma with tumor-derived organoids and effector T cells., gave us a small hick up that is fortunately easily addressed.

As we needed to do more experiments in absence of Ruby and Estella, we asked Luc (M), Patrick and Jyaysi if they could help us. And they did! So, all were included as co-authors on this manuscript. The Journal now would like to formally ask all of you if you agree to those changes. For this I would need an e-mail from you, in which you confirm that you agree.

Can you please send me your reply to this e-mail, including a statement that you agree to the changes made, i.e. including Luc Magre, Patrick P.C. Boor and Jyaysi Desai, in the author list at you soonest so I can bundle all replies and upload them to BJC.

The BJC also wanted me to contact you to ask you to link your own ORCID to this manuscript. You can do this via the author portal here: <https://mts-bjcancer.nature.com/cgi-bin/main.plex> and click on the 'Modify My Springer Nature Account' (see below)

Subject: Important! Please respond asap / acceptance manuscript BJC
Importance: High

Dear co-authors,

We are nearly there! Manuscript: BJC-A3339175R1 Modelling immune cytotoxicity for cholangiocarcinoma with tumor-derived organoids and effector T cells., gave us a small hiccup that is fortunately easily addressed.

As we needed to do more experiments in absence of Ruby and Estella, we asked Luc (M), Patrick and Jyaysi if they could help us. And they did! So, all were included as co-authors on this manuscript. The Journal now would like to formally ask all of you if you agree to those changes. For this I would need an e-mail from you, in which you confirm that you agree.

Can you please send me your reply to this e-mail, including a statement that you agree to the changes made, i.e. including Luc Magre, Patrick P.C. Boor and Jyaysi Desai, in the author list at you soonest so I can bundle all replies and upload them to BJC.

The BJC also wanted me to contact you to ask you to link your own ORCID to this manuscript. You can do this via the author portal here: <https://mts-bjcancer.nature.com/cgi-bin/main.plex> and click on the 'Modify My Springer Nature Account' (see below)

General Tasks

[Modify My Springer Nature Account](#) *Click here to view your submitted manuscripts, article download*
[Logout](#)

Hope to see your reply soon,

With kind regards,
Monique Verstegen
