

Supplementary Figure S4:

Supplementary Figure S4. **A.** Clonal space occupied by shared top 1% post-T clones in PBMCs at pre- and post-treatment timepoints (n=12). **B.** Clonal space occupied by shared top 1% post-T clones in PBMCs at pre- and post-treatment timepoints stratified by response (n=12; CPR, n=6; non-CPR, n=6). **C.** Clonal space occupied by NEC top 1% post-T clones in PBMCs at pre- and post-treatment timepoints (n=12). **D.** Clonal space occupied by NEC top 1% post-T clones in PBMCs at pre- and post-treatment timepoints stratified by response (n=12; CPR, n=6; non-CPR, n=6). ns= not significant, $P < 0.0125$ was considered statistically significant after Bonferroni's correction for multiple tests
