

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/atm-22-3204">https://dx.doi.org/10.21037/atm-22-3204</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The bioinformatics data in particular will be shared. And we also found the effect of PBMT on the mouse model of rosacea, which has seldom been provided in previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, researching plan, analysis code and PBMT parameters will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or bioinformatics data may be updated over time.
7	To whom will you share the data?	Medical dermatologists and laser surgeons who are interested in studies of rosacea and PBMT.
8	For what type of analysis or purpose?	For investigation to evaluate the effects of PBMT in rosacea patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: shuweiwu1999@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
