Classification: Social sciences, Demography

Keywords: COVID-19; demography; life expectancy; life span inequality; years of life lost

Supplementary Information

Figure S1. Contributions by age groups and causes of death to changes in life expectancy in 2010-2019 and 2019-2020 by racial/ethnic groups and sex.

Figure S2. Contributions by causes of death to changes in life expectancy in 2010-2019 and 2019-2020 by racial/ethnic groups and sex.

Figure S3. Contributions by causes of death to changes in lifespan inequality in 2010-2019 and 2019-2020 by racial/ethnic groups and sex.

A) Contribution of causes of death to changes in lifespan inequality from 2010 to 2020

B) Total contribution by cause of death

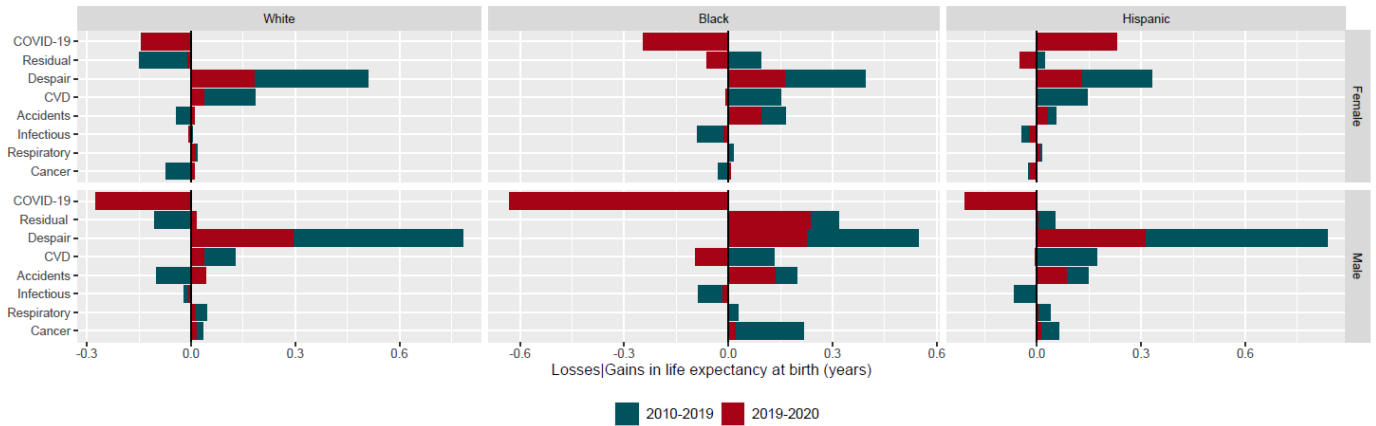

Figure S4. Results as shown in Figure 3 for Hispanic-Black difference in life expectancy.

Figure S5. Contributions by causes of death to ethnic/racial gaps in life expectancy in 2015, 2019 and 2020 by sex

Figure S6 Contributions by age and causes of death to ethnic/racial gaps in lifespan inequality in 2015, 2019 and 2020 by sex
