

## Data Sharing Statement

<b>Article Info</b>	https://dx.doi.org/10.21037/gs-22-101	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes. Data has been anonymized and is kept with the authors. Datasets are available from the corresponding author on reasonable request.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Antero-posterior length of pre- and postoperative chest wall, patient demographics, statistical analysis results
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested
5	When will data availability begin?	From the publication date
6	When will data availability end?	-
7	To whom will you share the data?	Breast surgeons and plastic surgeons who are interested in reconstruction with implant insertion
8	For what type of analysis or purpose?	For analysis to evaluate the possibility and risk factors of chest wall depression following implant insertion
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: kjh6321@naver.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
