

Description of Additional Supplementary Files

File name: Supplementary Data 1

Description: Differentially Expressed genes mdx vs mdx e23AON vs WT mouse data.

File name: Supplementary Data 2

Description: Seurat findallmarkers files for mouse data.

File name: Supplementary Data 3

Description: Genes and References.

File name: Supplementary Data 4

Description: M2MDSC_vs_MDSC differentially expressed genes .

File name: Supplementary Data 5

Description: MDSC vs. M1.M2 transitional differentially expressed genes.

File name: Supplementary Data 6

Description: FB POSTN1 vs. FB CCL11 differentially expressed genes.

File name: Supplementary Data 7

Description: numerical data Fig. 6a.

File name: Supplementary Data 8

Description: numerical data Fig. 7c.

File name: Supplementary Data 9

Description: Seurat findallmarkers files for human data.

File name: Supplementary Data 10

Description: Differentially expressed genes DMD vs control human data.
