Introduction

❖ We are gathering today because we are interested in learning more about concerns women / husband like you have. We are specifically interested in learning about concerns that women / husband have related to the barriers and enablers of institutional delivery care seeking behaviour and perception. We are going to talk about each of these topics. To make you more comfortable, you do not need to share what you experience specifically. You can react what you know may be concerns for other women / men like you.

Opening: Ice-Breaker

To get started, we would like to have you to share something about yourself. You do not need to say your name. Please go around and share the part of the day you enjoy the most or anything you like.

Detail question guide for in-depth interview (women with less than one year child and husbands)
