

Supplementary Data 1: List of DGE of the different $\gamma\delta$ clusters of the fetal thymus dataset.

Supplementary Data 2: List of DGE of the immature-maturing and effector fetal $\gamma\delta$ thymocyte populations.

Supplementary Data 3: List of DGE of the Type 1,3 and 2-like fetal $\gamma\delta$ thymocyte populations.

Supplementary Data 4: List of DGE of the different $\gamma\delta$ clusters of the paediatric thymus dataset.

Supplementary Data 5: Lists of markers used to compute module scores.
