

Figure S1. Effects of CAPE on the expression of NRF2. CAPE, caffeic acid phenethyl ester; NRF2, nuclear factor erythroid 2-related factor 2.

Figure S2. Effects of siRNA on the expression of NRF2. (A) Imaging of cells following transfection with NC FAM-siRNA. (B) The expression of NRF2 was detected using western blot analysis. CAPE, caffeic acid phenethyl ester; NRF2, nuclear factor erythroid 2-related factor 2.
