

File name: Supplementary Data 1

Description: Estimated somatic deletion rate per neuron

File name: Supplementary Data 2

Description: Gene ontology terms enriched for somatic deletions

File name: Source Data Fig. 1

Description: Includes source data for figures 1b, d, e.

File name: Source Data Fig. 3

Description: Includes source data for figures 3a, b, c, d, e.

File name: Source Data Fig. 4

Description: Includes source data for figures 4b, c, d, e.

File name: Source Data Fig. S1

Description: Includes source data for supplementary figures 1a, b, c, d, e, f.

File name: Source Data Fig. S3

Description: Includes source data for supplementary figures 3b, d.

File name: Source Data Fig. S4

Description: Includes source data for supplementary figures 4a, b, c, d, e.

File name: Source Data Fig. S5

Description: Includes source data for supplementary figure 5.

File name: Source Data Fig. S6

Description: Includes source data for supplementary figures 6a, b, c, d.
