

Supplementary Figure 3. The expression of ICI response prediction gene sets in high- and low- asparagine metabolism subgroups. A. 6-Genes Interferon Gamma. B. Gajewski 13-Genes Inflammatory. C. Inflammatory D. Interferon Gamma Biology. E. Ribas 10-Genes Interferon Gamma. F. T-cell Exhaustion. Tumor_G1 = high asparagine metabolism HCC group; Tumor_G2 = low asparagine metabolism HCC group.
