Description of Additional Supplementary Files

File name: Supplementary Data 1

Description: STARS output files for sgRNAs targeting DNMT3B

File name: Supplementary Data 2

Description: Custom DNMT1/3B CRISPR pooled sgRNA library

File name: Supplementary Data 3

Description: Raw counts for NGS results, binning of DNMT1 and DNMT3B CRISPR sgRNAs, and original chip file for custom DNMT1/3B CRISPR pooled sgRNA library.

File name: Supplementary Data 4

Description: Individual sgRNA sequences used for mutational analysis

File name: Supplementary Data 5

Description: Raw data files for data shown in Figure 1.
