S8. Supplemental document 4. Percentage of parents and surgeons scoring outcome terms in the Delphi Survey as critical (score 7-9) per country

= Outcome terms that met threshold for "consensus-in" (70% within group voting outcome as critical)

R1 = number of respondents per country in round 1

R2 = number of respondents per country in round 2

Wheighted Average = Percentage from all countries divided by the number of countries Total average = Average of all respondents scores. Non wheighting per country N/A = Not applicable, because outcome term added after round 1
