

Supplementary Figure 2. Kaplan–Meier curves for overall survival (OS) of biomarkers before treatment. Survival curves for (a) CD10; (b) FAP; (c) GPR77; (d) CD10 (0-1 vs 2-3); (e) FAP (0-1 vs 2-3); (f) GPR77 (0-1 vs 2-3). FAP was significantly related to OS ( $p=0.024$ ).
