

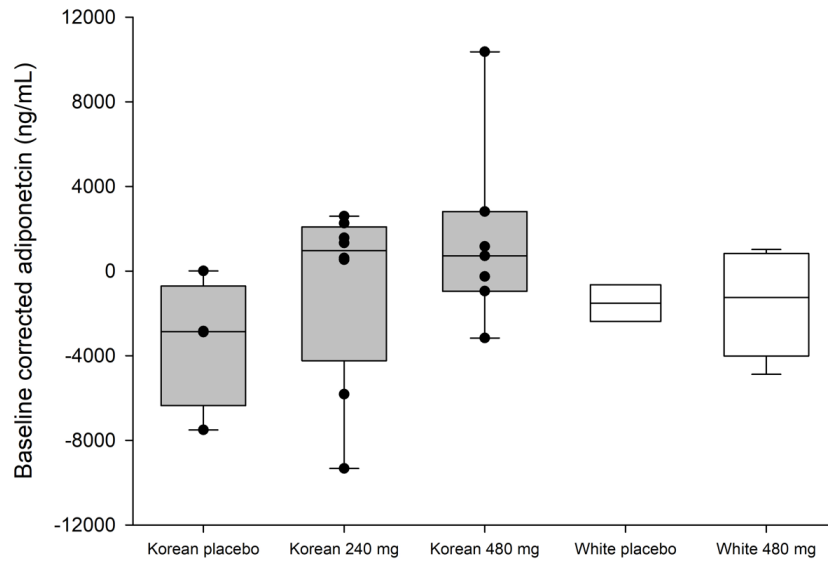

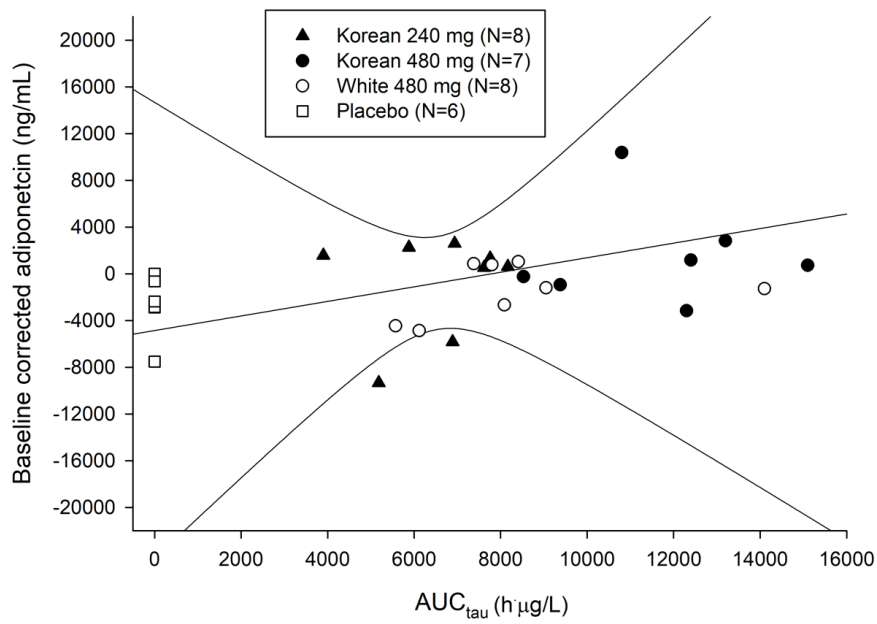

**Figure S1.** Mean plasma concentration-time profiles of (R)-, (S)-vutiglabinid after single and multiple oral administrations of vutiglabinid. The error bars represent the standard deviations. ((a) Plasma concentration of (R)-vutiglabinid after single dosing in single dose study (semi-log scale), (b) Plasma concentration of (S)-vutiglabinid after single dosing in single dose study (semi-log scale), (c) Plasma concentration of (R)-vutiglabinid after the last dosing in multiple dose study (semi-log scale), (d) Plasma concentration of (S)-vutiglabinid after the last dosing in multiple dose study (semi-log scale))
