

## Risk of bias domains

	D1	D2	D3	D4	D5	Overall
Study Grimstad 2020						

## Domains:

D1: Bias arising from the randomization process.

D2: Bias due to deviations from intended intervention.

D3: Bias due to missing outcome data.

D4: Bias in measurement of the outcome.

D5: Bias in selection of the reported result.

## Judgement

 High
