

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Phosphoproteomics and proteomics data for analysis of brains from 3-month old WT mice and mice harboring the PKC α M489V mutation on C57BL/6 background.

File Name: Supplementary Data 2

Description: Phosphoproteomics and proteomics data for analysis of brains from WT mice and mice harboring the PKC α M489V mutation on a B6;SJL background with the APP transgene carrying the Swedish mutation (APP^{swe}).
