

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Clinical characteristics of 86 Chinese tRCC patients and data availability

File Name: Supplementary Data 2

Description: Genetic alterations in tRCC

File Name: Supplementary Data 3

Description: Transcriptome, proteome and phosphoproteome expression matrix of tRCC tumor and NAT samples

File Name: Supplementary Data 4

Description: Differential analysis between tRCC tumor and NAT

File Name: Supplementary Data 5

Description: Clinical and molecular features among different fusion types of tRCC

File Name: Supplementary Data 6

Description: Proteomic subtypes and molecular features

File Name: Supplementary Data 7

Description: Immune subtypes and associated clinical and molecular features
