

Description of Additional Supplementary Files

File name: Supplementary Data 1

Description: A complete list of proteins identified across all the fractions for SF-sEV, PC3 sEVs and PC3 cell lysate (The source data underlying Figures 3 and 4 and Supplementary Figures 1, 2, 4 and 5)

File name: Supplementary Data 2

Description: List of proteins enriched in the surface of SF-sEVs. Only proteins identified in at least two replicates and with a ratio > 2 were included. (The source data underlying Supplementary Figure 3)

File name: Supplementary Data 3

Description: Functional descriptions for The 74 surface enriched proteins
