

The sensor contains tiny amounts of silicon, copper and magnesium that pass through the body naturally, just like the fiber in food.

Records DigiMeds™ and the time they were taken

DigiMeds™

The sensor sends a signal to the patch as it passes through the stomach.

Wearable patch

The patch sends this information to the app along with records of activity and rest.

Discover app

The mobile device acts as a conduit between data pod and server.

Behind the scenes – patient management
