

Description of Additional Supplementary Files

Supplementary Data 1

Anonymized clinical information for tumors analyzed in this study, displaying age, sex, TP53 mutation status, tumor type, estimated tumor purity, and regions analyzed.

Supplementary Data 2

Somatic SNV and indel driver mutations identified in LFS tumors, displaying tumor ID, chromosomal location and DNA, involved gene, SNV/indel type and corresponding protein change

Supplementary Data 3

Somatic SV driver mutations identified in LFS tumors, displaying tumor ID, SV type, chromosomal locations of breakpoints and genes involved at breakpoints.

Supplementary Data 4

Custom primers and reporter dye probes used in ddPCR analysis of nonmalignant colon tissue and blood-derived DNA
