

Supplemental Figure 3. Flow cytometry of splenocytes from WT and TBKO mice

Supplemental Figure 3. Flow cytometry of splenocytes from WT and TBKO mice. (A-C) Flow cytometry analysis of tumor free WT and TBKO mice splenocytes: numbers of major immune subsets (A), percentages of major immune subsets (B), percentages of subset CD8⁺ cells (C). WT group comprises three dLck-Cre, *Brcal*^{+/+} mice and four *Brcal*^{fl/fl} mice at similar age. **(D)** Representative flow gating strategy for TILs flow analysis.
